Sir,

With reference to your Letter No L.15600 dated 6/4/48 returning the Estimate for Rs.9000/- for macadamising and premixing with tar the portion of Hyderali Road from Nazarbad Police Station to the western gate of Chamundi Vihar as scrutinised by the Chief Engineer for Roads and buildings and enquiring whether the Estimate may be sanctioned for Rs 8500/- as corrected by the Chief Engineer, I have the honour to state as follows

It is seen from the Estimate as scrutinised by the Chief Engineer for Roads and Buildings that datas are called for, for the item of collecting quartz metal and for the collection of 3/4" granite chips It may be stated that the rate of R. 6/= as provided in the Estimate for the first item is as per the rate-[redacted] sanctioned by Government in G O NO L 10016-18/ -ml 38 47- 2 4 dated, 3-10-47 and this rate is being paid for all collection work of quartz metal As regards the 2nd item, the rate provided namely Rs 13/- per cvd is the one that is being paid in the City Municipality based upon the lowest tender Since this item of work is very rarely done by the Trust Board, the rate sanctioned in the above sister institution was naturally taken as sufficient basis As such the necessity of working out any data does not arise

Further it is seen from the scrutinised estimate for the item of collecting sand, that the rate of Rs 4/- as originally provided has been reduced to 1-12-0 It may be stated that good river sand is necessary for this work and it is actually being collected by employing the services of the Departmental Lorry, the labour portion relating to loading, conveying, etc , being entrusted to a contractor The aggregate rate works out to between R 3-8-0 and 4-0-0 depending upon the lead As such the original rate

lead

P T O

of Rs 4/- provided in the Estimate may kindly be retained

Lastly the rate for edging with slab pieces 3" to 4" thick and 6" to 8" in width including earth-work has been reduced from 0-6-0 to 0-4-3 Nobody has come-forward to execute this work at the reduced rate and as such, quotations have been called for to fix up a workable rate and the work will be got done at the lowest quotation rate. However the rate of 0-6-0 may kindly be retained for purposes of sanctioning the Estimate

Under the above circumstances I request that the Estimate may kindly be sanctioned for Rs.9000/- as per provisions in the estimate made originally and prepared and submitted from this Office

I have the honour to be,
Sir,
Your most obedient servant,

MYSORE CITY IMPROVEMENT TRUST BOARD

Sub:- Modified estimate for mecadamising and pre-mixing Hyderali Road from Nazarbad Police Station Circle to Chamundi Vihar West Gate

The original estimate sanctioned by the Board for the work as per Resolution No 190 dated 28-11-1945 is for Rs 9,50 is prepared on the basis of a lumpsum rate per sq yd , for both macadamising and pre-mixing as per data sheet This estimate has been scrutinised in the Office of the Chief Engineer for Roa and Buildings and reduced to Rs.7,900/- The reduction has been effected by cutting down the lump-sum rate provided in the estimate from Rs 1-15-0 to 1-9-0 per sq yd , by assuming lower rates for the collection of materials in the data sheet The Revenue Secretary has returned the estimate with the enquiry if the estimate as scrutinized in the Office of the Chief Engineer may be sanctioned

During actual execution, the macadamising work has been done by collecting quartz metal instead of granite after obtaining approval in view of the difficulty of collecting the latt and again in the data sheet the rates provided vary with thos prevailing since the estimate was prepared more than 2 years The provision made in the data sheet at ½ gallons of emulsion sq yd , for pre-mixing is also insufficient, since the minimu quantity of this material for a ¾" premix carpet is 12 gallon square or a little more than one gallon per sq yd

In view of the above deviations a modified estimate ha been got up providing for each individual item of work in det as per actuals and at prevailing rates For purposes of com rison with the previous estimate, it may be mentioned that th rate for 1 sq yd , according to the present detail estimate f both macadamising and premixing works out to Rs 1-15-9 as agai the original estimate rate of 1-15-0 per sq yd

The modified estimate for Rs 9,000/- may kindly be san tioned early

Trust Board Engineer
